

USAGE: Take 1 capsule per day with food or as directed by your qualified healthcare professional.

Jarrow Formulas® Freeze Dried Lactoferrin (Apolactoferrin) is an important immune supporting glycoprotein that is found in breast milk, tears and other body fluids.* One of the biological activities of lactoferrin comes from its powerful ability to bind iron (300 times that of serum transferrin) and facilitate iron absorption. Lactoferrin also promotes the growth of bifidobacteria.* Digestion of lactoferrin by gastric pepsin liberates the immune-supporting peptide lactoferricin B.* Freeze drying better preserves the delicate structure of the lactoferrin.*

**Keep out of the reach of children.
Store in a cool, dry place.**
