We prepare our Rhodiola Glycerite from the dried roots of *Rhodiola rosea* plants which are hand-harvested in their wild native habitat in the Russian Arctic Circle.

To assure optimal extraction of Rhodiola's antioxidant flavonoids and delicate rose flavor, the roots are hand-harvested at their optimal potency, are carefully shade-dried, and are then shipped directly to our laboratory and thoroughly extracted.

Our Rhodiola is never fumigated or irradiated.

Dried root / menstruum ratio: 1 : 5

Contains vegetable glycerine,
distilled water & Rhodiola extractives.

CONTAINS NO ALCOHOL
