

The Feel Great Story

After learning that he was going to be a first time father at age forty-six, Feel Great 365 founder Franklin VanOs made a conscious decision to begin improving his health. As a part of his new commitment, Frank began a deep dive study into nutrition, taking several naturopathic courses. During his studies, Frank became immensely inspired by the possibility of helping others achieve healthier, fuller lives through the power of nutrition. Frank also learned that many of today's current health problems are the result of a lack of nutrients found in our food and that this problem, though complex, was solvable. With this desire to positively affect lives, Frank and a team of industry experts launched Feel Great 365 to make nutrition accessible and simple for those seeking to improve their health. Frank's passion, dedication, and knowledge are at the core of the Feel Great 365 mission to create a healthier planet.
