

PREMIER SCIENCE

The Vitaline CoQ10 ingredient is the subject of more than 25 clinical trials, including NIH-funded (National Institute of Health) Phase 3 trials. The unique formulation has the proven ability to not only increase serum levels of CoQ10, but also to cross the cell membrane and be absorbed into the mitochondria for exceptional results.

For more than a decade, researchers and healthcare practitioners have turned to Vitaline CoQ10 for its proven purity, safety, and efficacy.
