

DIRECTIONS: As a dietary supplement, take one (1) capsule three times daily.

Klamath Blue Green Algae contains a full spectrum of 12 vitamins, including Vitamin B-12 and Beta Carotene, and 23 minerals. A rich nutritional food, it contains large amounts of high quality protein, with a complement of essential amino acids. Klamath Blue Green Algae is harvested from May to October on a daily basis, fresh from the Upper Klamath Lake, a fresh water lake fed by rivers and underground springs which provide a mineral rich reservoir for the algae. Once harvested it is flash frozen to preserve its vital nutrients.

TAMPER EVIDENT: Do not use this product if imprinted foil seal under cap is broken or missing.
