

**Recommendation:** Take 2 softgels daily with food.

New Sun Lecithin Elite has phosphatidyl choline, the most abundant phospholipid in the cell membrane, where it plays a key role in cellular signaling and synaptic function.\* New Sun Lecithin Elite also naturally abounds in phosphatidyl inositol, phosphatidyl ethanolamine, and essential fatty acids. Lecithin in the diet aids in emulsifying fats, enabling them to be dispersed in water; and as a choline-containing phospholipid, its choline is easily absorbed and utilized by the body.\* New Sun Lecithin Elite Softgels are non-GMO and soy-free.
