

Suggested Usage: Take 2 capsules 1 to 2 times daily as needed.

Pau D'Arco is derived from the inner bark of tabebuia trees, which are native to the Amazonian rainforest. Pau D'Arco has been used by traditional herbalists for centuries. This traditional use is supported by the more recent discovery of many active compounds including lapachol and beta-lapachone.

Caution: For adults only. Not recommended for pregnant or nursing women. Consult physician if taking medication or have a medical condition. Keep out of reach of children.
