LIQUID HERBAL EXTRACT

WILD CHERRY

Prunus virginiana
Thin Green Bark

HERBAL DIETARY SUPPLEMENT
4 Fluid Ounces (118.4 ml)

We prepare our Wild Cherry Extract from the thin, green bark of *Prunus virginiana* trees which are Certified Organically Grown without the use of chemical fertilizers, pesticides or herbicides or are Custom Wildcrafted™ in their wild native habitat.

To assure optimal extraction of Wild Cherry's bioactive compounds, the tender, green bark is hand-harvested only in the early autumn and is carefully shade-dried. To extract the bark's full cherry aroma & flavor, we use our special fermentation/extraction process.

Our Wild Cherry is never fumigated or irradiated.

Dry herb / menstruum ratio: 1 : 4

Contains distilled water, certified organic grain alcohol (18-22%), vegetable glycerine & Wild Cherry extractives.
