PLUS DHA
Maternal Nutritional Supplement

Rx Prenatal Vitamin Tablet and
200 mg DHA Gel Capsule

Tablets Contain 15 essential
vitamins and minerals

Gel capsules contain a highly
purified pharmaceutical grade DHA

PRECAUTIONS: Folic acid when administered as a single agent in doses above 0.1 mg daily may obscure pernicious anemia in that hematologic remission can occur while neurological manifestations remain progressive. Pregnant women and nursing mothers should avoid supplemental doses of vitamin E higher than RDA amounts. While prescribing this nutritional supplement for pregnant women, nursing mothers, or for women prior to conception, their medical condition and other drugs, herbs, and/or supplements consumption should be considered.

ADVERSE REACTIONS: Allergic sensitization has been reported following both oral and parenteral administration of folic acid.

DOSAGE AND ADMINISTRATION: One tablet and one softgel daily with or without food, or as prescribed by a licensed health care provider with prescribing authority.

HOW SUPPLIED: Paire OB Plus DHA is supplied in six child-resistant blister packs of 5 tablets and 5 capsules each - NDC 11528-095-03.

KEEP OUT OF REACH OF CHILDREN.

STORAGE: Store at controlled room temperature 20°-25°C (68°-77°F). Excursions permitted to 15°-30°C (59°-86°F). [See current USP]

Contact with moisture can discolor or erode the tablet.

PaireOB™ PLUS DHA

Maternal Nutritional Supplement

DESCRIPTION: Paire OB Plus DHA is a prescription prenatal/postnatal multivitamin/mineral tablet and a gel capsule of an essential fatty acid. The prenatal vitamin is a scored, white, oval multivitamin/mineral tablet debossed and bisected with "ML" on one side and plain on the other. The essential fatty acid DHA capsule is a softgel containing a clear semi-solid mixture.

Each prenatal tablet contains:
VITAMINS

D3 (as cholecalciferol)	400 IU
E (as d-alpha tocopheryl succinate)	10 IU
B1 (as thiamin mononitrate)	1.5 mg
B2 (as riboflavin)	1.8 mg
B3 (as niacinamide)	17 mg
B6 (as pyridoxine HCl)	50 mg
Folic Acid	1 mg
B12 (as cyanocobalamin)	12 mcg
Biotin	30 mcg
B5 (as d-calcium pantothenate)	10 mg

MINERALS

Iron (as polysaccharide iron complex)	22 mg
(as ferrous aspartate and iron glycinate)	6 mg
Iodine (as potassium iodide)	175 mcg
Zinc (as zinc oxide)	15 mg
Selenium (as sodium selenate)	65 mcg
Copper (as cupric sulfate)	0.8 mg

INACTIVE INGREDIENTS:

Microcrystalline cellulose, dicalcium phosphate, croscarmellose sodium, magnesium stearate, silicon dioxide, crospovidone, ethcol, sodium ascorbate, hypromellose, titanium dioxide, polydextrose, talc, methylcellulose, medium chain triglycerides.

Each DHA gelatin capsule contains:

Docosahexaenoic Acid (DHA)

Inactive ingredients in the DHA softgel include: gelatin, glycerin USP, water.

INDICATIONS AND USAGE: Paire OB Plus DHA is a prescription multivitamin/multimineral and Omega-3 fatty acid nutritional supplement indicated for use in improving the nutritional status of women throughout pregnancy and in the postnatal period for both lactating and non-lactating mothers. Paire OB Plus DHA is also beneficial in improving the nutritional status of women prior to conception.

CONTRAINDICATIONS: This product is contraindicated in patients with a known hypersensitivity to any of the ingredients.

WARNING: Ingestion of more than 3 grams of omega-3 fatty acids per day has been shown to have potential antithrombotic effects, including an increased bleeding time and International Normalized Ratio (INR). Administration of omega-3 fatty acids should be avoided in patients taking anticoagulants and in those known to have an inherited or acquired predisposition to bleeding diathesis.

WARNING: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. KEEP THIS PRODUCT OUT OF THE REACH OF CHILDREN. In case of accidental overdose, call a doctor or poison control center immediately.
