PQQ Energy

Cognitive Support*

- Free Radical Scavenger*
- Supports Mitochondrial Function*

30 Veg Capsules

A Dietary Supplement Vegetarian/Vegan

Suggested Usage: Take 1 capsule daily with a meal.

Mitochondria are the organelles that produce almost all of the cellular energy the body requires. While present in all cells, organs like the heart and brain are particularly dense with mitochondria due to their high energy demands. Pyrroloquinoline quinone (PQQ) is a B vitamin-like enzyme cofactor that helps to protect mitochondria from oxidative stress and promotes the generation of new mitochondria within cells.* PQQ may thus help to maintain robust cellular energy production, support heart health, and promote normal cognitive function.* CoQ10 and acetyl-L-carnitine have been included for their critical roles in mitochondrial function and energy production.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: For adults only. Consult physician if pregnant/nursing, taking medication (especially warfarin or acenocoumerol), or have a medical condition. Keep out of reach of children.
