We prepare our Yarrow Extract from the 8 flowering umbels of *Achillea millefolium* plants which are **Certified Organically Grown** and/or **Custom Wildcrafted™** in their natural wild habitat in the Siskiyou & Cascade Mountains of Oregon. To assure optimal extraction of Yarrow's bioactive compounds, the uppermost flowering tops (umbels) are hand-harvested at their peak of potency, are carefully shade-dried to retain their full color & aroma, and are then thoroughly extracted.
