Use NUTRILITE® Glucose Health in combination with a nutritious low calorie diet and moderate exercise to help support already healthy blood glucose levels and potentially reduce the risk of type 2 diabetes.\* Glucose Health is specially formulated with Chromium Picolinate, necessary for the body's utilization of fats, proteins, and carbohydrates — and important for maintaining already normal blood sugar levels.∞ Also combines a blend of garcinia, gymnema, and vanadium for their beneficial effects on the metabolism of the foods we eat.∞

One small study suggests that chromium picolinate may reduce the risk of insulin resistance, and therefore possibly may reduce the risk of type 2 diabetes. FDA concludes, however, that the existence of such a relationship between chromium picolinate and either insulin resistance or type 2 diabetes is highly uncertain.

**CHILDREN UNDER 12 YEARS OF AGE, PREGNANT WOMEN OR NURSING MOTHERS, OR ANYONE WITH A MEDICAL CONDITION INCLUDING DIABETES AND HYPOLYCEMIA SHOULD CONSULT WITH A PHYSICIAN BEFORE USING THIS PRODUCT. KEEP BOTTLE TIGHTLY CLOSED. STORE IN A COOL,**
