NUTRILITE® Multi Carotene contains an all natural carotenecomplex extracted from 3 concentrates: dunalabella salina algae, palm fruit oil and marigold flowers. This unique blend provides a broad spectrum of carotenoids from alpha and beta carotenes, lutein and zeaxanthin. Natural beta carotene is converted into true vitamin A in the body as needed. This complex provides a range of natural carotenoids closer to the mix of carotenoids in fruits and vegetables than the isolated beta carotene in many supplements.
