SUGGESTED USE

LIQUID HERBAL EXTRACT

YERBA SANTA

Eriodictyon californicum

Resin-Rich Leaf

HERBAL DIETARY SUPPLEMENT
4 Fluid Ounces (118.4 ml)

We prepare our Yerba Santa Extract from the dried leaf of *Eriodictyon californicum* shrubs which are Custom Wildcrafted™ in their wild native habitat in California's Sierra Nevada Mountains.

To assure optimal extraction of Yerba Santa's bioactive compounds, the leaves are hand-harvested in mid-summer when they are at their highest resin content, are carefully shade-dried to retain their full color and aroma, and are then thoroughly extracted.

Our Yerba Santa is never fumigated or irradiated.

Dry herb / menstruum ratio: 1 : 5

Contains certified organic grain alcohol (66-76%), distilled water & Yerba Santa extractives.
