

CONTAINS NO artificial colors, flavors or preservatives; no wheat, gluten, milk, eggs, peanuts, tree nuts, soy, crustacean shellfish or fish. Suitable for vegans.

One of the B vitamins, Niacin promotes healthy cholesterol levels for individuals already within a normal range and supports energy production.[†] Our prolonged release niacin tablets use an advanced manufacturing technique which releases the nutrients slowly (over approximately 2-4 hours) promoting optimal assimilation.

Flushing (warmth, redness, itching and/or tingling of the skin) is a common side effect on niacin supplementation that may subside after several weeks of consistent use. Flushing may vary in severity and is more likely to occur with initiation of supplementation, or during dose increases.

**PURITY + POTENCY
