

CONTAINS NO artificial colors, flavors or preservatives; no wheat, gluten, milk, eggs, peanuts, tree nuts, soy, crustacean shellfish or fish. Suitable for vegans.

Policosanol is a mixture of nine different aliphatic alcohols designed to support healthy cholesterol.[†] Octacosanol, a derivative of the wax from sugar cane plants, is the main ingredient in policosanol and works as a powerful antioxidant to help maintain healthy arteries.[†] This, combined with the actions of eight other alcohols, including triacontanol and hexacosanol, can support healthy LDL and HDL levels, and promote cardiovascular health.[†]
