SUGGESTED USE: Take one capsule up to two times daily with food.

Lutein along with its isomer zeaxanthin are natural powerful antioxidants from the carotenoid family that promote eye health.[†] Bilberries, native to northern Europe, are a natural source of anthocyanins and other nutrients that have been used for centuries to support eye and vision health.[†]

Our powerful Ultimate Eye Formula® supports eye health with a single capsule daily.† The proprietary, low-heat, solvent-free manufacturing process makes our formula different from all other bilberry products on the market. Our Bio-Shield® Technology concentrates, protects, and controls the release of important nutrients that otherwise could easily be damaged during processing or in the stomach. This full spectrum formula also features blueberry concentrate, an additional rich source of anthocyanin compounds.

BIL-MAX® and BLU-MAX® are registered trademarks of Cape Cod Biolab Corp.
