Nature Synergized™ with Real Whole-Food Goodness

Paradise Earth's Blend Vitamin D3 is truly a Nature Synergized superfood. Our formula uses real whole-food goodness paired with vitamin D3, probiotics and mood lifting adaptogens to go beyond mere deficiencies and help support overall whole system health. Vitamin D is normally produced in the body's skin by exposure and response to sunlight, which is why it is known as the sunshine vitamin. Vitamin D supports many essential health promoting functions.**
