connective tissues, such as articular cartilage and skin.*

Suggested Usage: Take 2 capsules 1 to 2 times daily with food. If intestinal gas occurs, reduce dosage.

MSM (Methylsulfonylmethane) is a sulfur-bearing compound

that is naturally present in very small amounts in fruits, vegeta-

bles, grains, animal products, and some algae. Sulfur com-

pounds are found in all body cells and are indispensable for

life.* MSM, in its role in the body's sulfur cycle, helps to create

the chemical links needed to form and maintain numerous dif-

ferent types of structural tissues of the human body, including

connective tissues, such as articular cartilage and skin.*
