Lutigold™ Lutein is derived from pure, natural sources only - never synthesized in a lab. Lutigold™ Lutein is also non-genetically modified and contains naturally-occurring protective antioxidants and active carotenoids such as Zeaxanthin that provide synergistic support. As we age, our body's natural supply of Lutein decreases and since Lutein is not made in the body - it's important to take every day.

When choosing Lutein...
make sure it's Lutigold™!
