

Paradise V-Glucosamine™ is a non-shellfish vegetarian source of glucosamine. Until recently, glucosamine was only available derived from shellfish waste, which in some people can cause allergic reactions.

Glucosamine is a key building block for connective tissue and cartilage. It contributes to the cushioning nature of the joint fluids and surrounding tissues. Glucosamine is a dietary supplement used to help increase flexibility and promote overall joint health.**

GUARANTEED 100% VEGETARIAN • NO SHELLFISH

WARNING: Keep in a cool dry place, out of the reach of children.
