WHO WE ARE In 1983, Animal was founded with the birth of Animal Pak, the venerable training "pack" that started it all. Born from the needs and desires of pro bodybuilders, Animal has grown prodigiously over the decades. Today, Animal has stood the test of time and been proven in the trenches day in and day out. The name stands for trust, integrity and a no nonsense approach to the game. **WHAT ANIMAL IMMUNE PAK IS** You've worked hard to make your body lean, fit, and strong. But even the most formidable bodies need defense—every single day. It helps to get enough shut-eye (at least 7 hours every night, if not more) and quality rest (to recover from the last training session). Put too much stress on any system, and it'll start showing cracks—and stress builds up over time. Think of your immune system as the last line of defense and help support and protect it.†
