NET WT. 1 LB. (450g)

ANTLER FARMS®

Grass Fed

Antler Farms® New Zealand Colostrum is 100% pure colostrum from grass fed, pasture raised cows. Our colostrum is collected within 24 hours of birth. During this period, it is loaded with nutrients including biologically active proteins such as immune factors and growth factors.*

Clean Sourced

High quality colostrum begins at the source. New Zealand, one of the purest and cleanest places on earth, is the most advanced dairy producer in the world, operating under strict guidelines for husbandry and general care of its livestock. Our cows are naturally healthy. Absolutely no hormones, antibiotics, chemicals or GMOs are used.*

Simply Processed

Colostrum is most nutritious and effective when left intact as nature intended. Therefore, Antler Farms® New Zealand Colostrum is pure, undiluted and minimally processed to preserve all of its vital nutrients. Our colostrum is flash pasteurized and spray-dried at low temperatures so it retains its full bioavailability.*
