30 DAYS TO HEALTHIER, GLOWING, HAIR, SKIN AND NAILS.

After the age of 20, a person produces about 1 percent less collagen in the skin each year. Protecting your skin goes beyond SPF and a moisturizer. Our skin is the largest organ in the body and needs quality care from within to fight cellular damage, premature aging, infections and disease. Our hair and nails are considered superfluous by the immune system and are the first to be starved of nutrition if it is needed elsewhere in the body. This is why it is essential to give your system all the right vitamins, minerals and nutrients it needs, so you can be healthy on the inside and radiant on the outside.

To keep yourself looking young, vibrant and beautiful, you must nourish from within, enhancing the body's natural cycles and reinforcing from the cellular level. This is why we formulated a digestible supplement instead of another face cream.

VERISOL BIOACTIVE COLLAGEN PEPTIDES 2.5 G

✓ Increases collagen production, reduces wrinkles, smooths cellulite, improves skin elasticity*

VITAMIN C 66 MG

✓ Stimulates collagen synthesis, reduces skin damage from UV exposure, limits free radicals and retains moisture in the skin*

STEVIA LEAF EXTRACT 130 MG

✓ Helps control blood sugar, protects against breast cancer, supports weight loss and naturally sweetens*

Protecting your skin goes beyond SPF and a moisturizer. Our skin is the largest organ in the body and needs quality care from within to fight cellular damage, premature aging, infections and disease. Our hair and nails are considered superfluous by the immune system and are the first to be starved of nutrition if it is needed elsewhere in the body. This is why it is essential to give your system all the right vitamins, minerals and nutrients it needs, so you can be healthy on the inside and radiant on the outside.

To keep yourself young, vibrant and beautiful, you must nourish from within, enhancing the body's natural cycles and reinforcing from the cellular level. This is why we formulated a digestible supplement instead of another face cream.

VERISOL® Bioactive Collagen Peptides have been clinically proven to reduce wrinkles, decrease cellulite visibility, increase the procollagen concentration in the skin and revive dry, brittle nails. Collagen is the key protein that creates and fortifies tendons, connective tissues, bones, and it makes up nearly 80% of our skin! It is also the primary component of our hair and nails. As adolescents, our bodies supply large quantities so we can grow, but as we age, we produce less each year. To retain your youth, it is imperative to restore the collagen levels at the hypodermis and epidermis layers.

The only other nutrient with the same properties as the collagen is vitamin C, as it initiates more collagen synthesis in the body and works to heal the damage done to skin by free radicals and UV rays. It is an excellent, organic source of nutrients for our bodies, and along with VERISOL® Bioactive Collagen Peptides, your skin will be rejuvenated and glowing.
