IDEBENONE 500

DIETARY SUPPLEMENT

Supports Mitochondrial Function*

500 mg • 60 Capsules

Idebenone, Studies have shown Idebenone to be a lipids/fat (hydrophobic) antioxidant. Fat-soluble antioxidants dissolve in fats and oils and generally cross fatty cell membranes more quickly than water-soluble antioxidants. When absorbed along with fats in the diet, idebenone is stored in the body's fatty tissue, and then used.*
