

SUGGESTED USE: AS A DIETARY SUPPLEMENT, TAKE 2 TEASPOONS PER DAY OR AS DIRECTED BY YOUR HEALTHCARE PROFESSIONAL.

TASTE TEST TO EVALUATE ZINC STATUS*

Hold 1 tsp. **ZincEval Select**® in mouth for 10-30 seconds before swallowing, and note flavor that develops on tongue.

Evaluate zinc status as follows:

- **Immediate, very noticeable bitter, unpleasant or metallic taste:**
Indicates optimal levels of zinc are present; suggests no need for zinc supplementation.
- **Slight bitter or metallic taste:**
Indicates suboptimal zinc levels; suggests need for zinc supplementation.
- **Absence of taste, sweet or "water-like" taste:**
Indicates low zinc levels; suggests definite need for zinc supplementation. Consider use of **Zinc Select** capsules to avoid increasingly bitter taste experience as zinc status improves.

Perform follow-up taste tests with **ZincEval Select** after 2 to 4 weeks of zinc supplementation to help re-evaluate zinc status.
