Caralluma Fimbriata extract is derived from a cactus that grows abundantly in India where it has been consumed raw, seasoned with spices and cooked in traditional Indian dishes for centuries. Nicknamed the 'famine food,' this edible cactus was used in India during times of famine and on hunting treks for its powerful appetite-suppressing and thirst-quenching qualities*

CAUTION: Do not exceed recommended dose. Pregnant or nursing mothers, children under the age of 18, and individuals with a known medical condition should consult a physician before using this or any dietary supplement. **Keep out of reach of children.** Do not use if safety seal is damaged or missing. Store in a cool, dry place.
