Garcinia Cambogia FAT BURNER uses the purest extracts from a plant commonly known as Tamarind. This native indonesian fruit, also called *Garcinia Cambogia*, is a pumpkin shaped fruit and has been used for natural appetite control and healthy energy levels. The natural compound Hydroxycitric acid (HCA) interrupts the conversion of sugar and starch into fat and disrupts the production of the neuropeptide responsible for the sensation of hunger.*

CAUTION: Do not exceed recommended dose. Pregnant or nursing mothers, children under the age of 18, and individuals with a known medical condition should consult a physician before using this or any dietary supplement.
