

High-Absorption Magnesium

Magnesium is an essential mineral that supports healthy heart, bones, and relaxation of muscles.*

Today's high-stress lifestyle, low vegetable intake, and frequent medication use may lead to poor magnesium status.

This product contains two highly absorbable forms of chelated magnesium: glycinate and malate.

SUGGESTED USE: Take two (2) capsules once or twice daily with or without meals.

DOES NOT CONTAIN: Dairy, eggs, fish, shellfish, tree nuts, peanuts, wheat/gluten, soy, sugar, GMO, yeast, artificial colors or flavors.

All ingredients are non-GMO and suitable for vegans.

InnovixLabs Advanced Magnesium is Chelated. It is not buffered or blended with magnesium oxide, which is often used as a laxative.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Highly
Absorbable*

Advanced MAGNESIUM

*GENTLE ON STOMACH**

- Supports Heart, Bones, and Muscles*
