

Rediscover the Pleasure of Eating At Any Age!

After your thirties, your body's digestive enzymes may not be able to break down foods as effectively as before. This unique formula enhances your ability to digest problematic foods, including proteins, carbohydrates, fats, as well as wheat and dairy.*

Caution: While CompleteGest® 40+ Renew will reduce the level of reactive gliadin and gluten proteins in a meal, it is advised that celiac disease sufferers continue with their normal gluten exclusion diet as even small amounts of gliadin can cause adverse reactions in the most sensitized individuals. If pregnant, nursing, or taking prescription drugs, consult your healthcare practitioner prior to use.

Recommendations: One capsule with each meal, or as directed by your healthcare practitioner.
