

YOUR SELECTION

You hold in your hands the finest traditional botanical available. This botanical is a long-standing favorite in South America where it has been empirically selected for its effectiveness over many generations.

TRADITIONAL ETHNOBOTANICAL INFO

This wild jungle berry is one of the highest recorded sources of vitamin C, more than oranges or lemons, and higher than acerola fruit. The fruit also contains natural rutin and bioflavanoids. Camu Camu Mega-C™ shows trace elements such as iron, phosphorus, beta carotene, calcium, vitamin B1, B2 and B3, as well as a comprehensive complex of minerals and amino acids. This species grows wild in abundance in swamps along rivers and lakes in Peru, Amazonian Brazil and Venezuela.
