MANUFACTURED BY

GINGER 450

PURE STANDARDIZED GINGER ROOT EXTRACT
SOOTHING RELIEF FOR JOINTS AND DIGESTION

360 Easy-to-Swallow Capsules

Andrew Lessman's GINGER 450 contains a pure standardized extract of the most important active components from **Ginger Root** in a small, easy-to-swallow capsule. For more than one thousand years throughout virtually all Asian cultures, **Ginger** has been employed as both an important spice and a crucial part of traditional medicine. It was among the first spices cultivated in the New World for both its rich flavor and its medicinal properties. It is not surprising to learn that **Ginger** is closely related to Turmeric, another popular Asian spice possessing powerful protective properties. Ginger has long been recommended as a natural means of calming an upset, sensitive or uneasy stomach. **Ginger's** soothing benefits have also been observed to extend to our joints and connective tissue. Standardized to deliver no less than 5% **Gingerols**, our **Ginger Extract** provides a rich source of protective compounds that offer extensive anti-aging and anti-oxidant protection. Unlike typical **Ginger** products found on store shelves that are really nothing more than some ordinary spice in a bottle, our **Ginger 450** is formulated to ensure the highest levels of the protective compounds you seek.
