Natural Hormone Balance
WOMEN'S WELLNESS™

Natural Relief for Symptoms of
Menopause, Perimenopause and PMS

Dietary Supplement | **360** Easy-to-Swallow Capsules

Andrew Lessman's WOMEN'S WELLNESS is our comprehensive formula to support the needs of women at all stages of life. It contains our highest levels of the key beneficial isoflavones from Soy (Genistein, Genistin, Daidzein and Daidzin). Research has shown that these natural isoflavones can help to diminish the normal symptoms of menopause, such as hot flashes and night sweats. In addition to extensive research on hormonal balance, only Soy isoflavones have also been consistently shown to support bone and heart health. For centuries, Soy has been a staple food in the healthy Asian diet and Women's Wellness is designed to provide the same balance of isoflavones present in the healthy Asian diet. We also include 100 IU of Vitamin D3 and 50 mg of Calcium because of their critical roles in women's health, along with our special extract of Green Tea – Asia's traditional beverage. Our Green Tea extract is standardized to provide 125 mg of EGCG, which is now viewed as the molecule responsible for Green Tea's many health benefits. We include 75 mg of our Broccoli extract standardized for high levels of Sulforaphane, which is now considered to be Broccoli's key beneficial molecule. We also include 250 mg of our special Cranberry concentrate, providing powerful support to a woman's urinary tract. Also included are Lutein, Lycopene and Zeaxanthin because these powerful anti-oxidants are so important to the health of female tissues, while also lacking from our diet and most supplements. We also include high levels of our absorption-protected Natural B-12 (Methylcobalamin). In short, all of these specialized ingredients make our Women's Wellness a truly unique and comprehensive choice for hormonal balance and wellness throughout all stages of life.
