

Somesta® combines quality natural ingredients to combat occasional sleeplessness on a long term basis: compounds such as melatonin are commonly found in healthy people, however many individuals do not produce enough of these compounds, and as a result experience trouble falling asleep and sleeping through the night.†

The ingredients in Somesta® have been carefully balanced to complement each other and produce positive results in a relatively short time.†

Suggested Use: Take 1 capsule, one half hour before sleeping, preferably on an empty stomach.

Warning: If you are pregnant or lactating, consult a healthcare professional before using this product. **KEEP OUT OF THE REACH OF CHILDREN.** Store in a cool dry place. Do not use this product if the safety seal if the bottle is broken.
