

Give your child a "vitamin" for their brain every day!

The school-age years bring a whole new set of challenges for young children. Ensuring that they get the proper amount of rest and eat a healthy diet is key. Supplementing their diet with DHA, an omega-3 fatty acid and essential brain nutrient, will help keep your child's brain functioning at its best.*

BrainStrong™ Kids great tasting gummies contain *life'sDHA*™, the same brand of DHA added to nearly all U.S. infant formula. Since most kids don't eat the foods that naturally contain DHA, such as fatty fish, a supplement containing a plant based source of DHA is especially important to help promote optimal brain function.*

Supplement Facts

Serving Size: One (1) Gummy

Servings Per Container: 30

Amount Per Serving % DV 3 years of age % DV 4+ years of age

™ is from an all-natural, vegetarian source (algae); not fish. Most people think that fish are the original source of DHA omega-3, but it's really the algae they eat that naturally contains this brain healthy omega-3.* With *life'sDHA*™, you get all the health benefits of DHA without the worry of ocean-borne pollutants and toxins potentially found in certain fish.

Tamper evident: Do not use if blister foil or seal is open or damaged. Storage Conditions: store at room temperature. Do not expose to excessive heat, humidity or direct sunlight.

For questions, concerns, or to report an adverse event, please call (800) 722-3476.
