

Compare Bean-zyme 400 GALU to Beans Ultra 800

Supplement Facts

Serving size	1 tablet
Servings per container	150

Amount per serving (1 tablet)

Alpha-galactosidase enzyme 400 GALU* (from Aspergillus niger, food grade mold)

* Daily Value not established

Other Ingredients: Cellulose, vegetable stearins, silica **Action:** Complex indigestible sugars in many foods like beans, cabbage, broccoli, onions, pastas, soy

products, and others, can ferment in your digestive tract, producing gas (flatulence). The enzyme in Bean-zyme, breaks these sugars down so they can be digested, thus reducing or eliminating the gas formed. ** **Directions:** Per Serving of problem food, swallow 1 tablet of Bean-zyme with first bite of food. Do not cook with Bean-zyme. **Allergy:** If sensitivity occurs discontinue use.

* Statements have not been evaluated by FDA
