

EpiCor® is a natural immune-supportive compound that fits into the unique category of being a high metabolite immunogen.* EpiCor® is a nutritive dried yeast fermentate that supports cellular metabolism and modulates immune function.* It is derived from the yeast *Saccharomyces cerevisiae*, a non-pathogenic yeast commonly used in baking and brewing. In vitro laboratory data has shown that EpiCor® beneficially influences cellular processes that impact immune health.*

**High Metabolite Immunogen that
Modulates Immune System Function***

Shown to activate Natural Killer (NK) cells *in vitro**
