

HYDRATION MULTIPLIER

ELECTROLYTE DRINK MIX

utilizing

[Cellular Transport Technology]

1 Liquid I.V. can provide the same hydration as drinking 2–3 bottles of water

ÇAÍ BERRY

This Pouch Contains 16 Individual Stick Packs

Net Wt. 256g (9.03oz)

Electrolytes:
3x more than sports drinks

Potassium:
More than a banana

Vitamin C:
More than an orange

OUR MISSION: DEFEATING DEHYDRATION GLOBALLY

The science utilized in Liquid I.V. was originally developed by the World Health Organization (WHO) to save lives from dehydration. We remain true to our give-back roots by donating thousands of servings of Liquid I.V. every year to help people suffering from dehydration around the world. When you choose to hydrate with Liquid I.V., it helps others do the same. Your purchase directly impacts the lives of those who need it most.

OUR STORY: Liquid I.V. was founded in 2012 by two best friends from the beaches of Santa Monica, CA. As collegiate athletes, Brandin and Hayden were sick of consuming sports drinks filled with artificial colors, flavors, sweeteners, and preservatives. So they partnered with a group of world-renowned nutrition scientists to create a line of healthy, effective, and great tasting products based on a breakthrough nutrient delivery system.

THE KEY TO HYDRATION IS UPTAKE, NOT INTAKE. Conventional hydration products are not optimized for absorption. Our body's absorption of water is absolutely dependent on the co-transport of electrolytes, particularly sodium, and glucose.

CELLULAR TRANSPORT TECHNOLOGY (CTT) – HYDRATION OPTIMIZED. The Patent Pending science of CTT is based on an optimal ratio of nutrients that delivers hydration directly to your bloodstream, hydrating you 2–3x faster and more efficiently than water alone!

Mined Salt + Potassium + Cane Sugar + Water = CTT

The Liquid I.V. Nutrient Delivery System utilizes CTT to combat the effects of dehydration caused by active lifestyles, intense physical exertion, jet lag, and more. Here to help fuel—or recover from—life's adventures, Liquid I.V. optimizes the benefits of water.

FEEL THE LIQUID I.V. DIFFERENCE FOR YOURSELF!

SUGGESTED USE: Add 1 stick pack to 16oz of water and mix thoroughly before drinking. Take as needed to support hydration. Multiple servings can be consumed. Recommended by doctors and safe for kids. Store in a cool, dry place. When exposed to moisture or heat, product may crystallize but is still effective and safe for consumption.

No Preservatives
No Artificial Flavors
No Artificial Sweeteners
No Artificial Colors
