

In this product, the superior bioactivity of krill omega-3 DHA and EPA as phospholipids is augmented by DHA and EPA from fish. These vital lipids are building blocks of the cell membrane systems that manage most of the important life functions. Real Krill Enhanced with DHA & EPA ensures a generous daily supply of DHA, together with EPA for effective support of health and well-being.

High-potency source of omega-3 DHA and EPA*

Supports healthy brain, joint, and other organ functions*

Promotes cardiovascular health**

** Supportive but not conclusive research shows that consumption of EPA and DHA omega-3 fatty acids may reduce the risk of coronary disease.

***These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.**
