Your gut microbiome is as unique as you are.

Kyo-Dophilus® Pro+ Synbiotic Tasty chewable tablets contain a specially selected prebiotic and a community of 9 probiotics strains including **The Friendly Trio®**. Synbiotic is a term used for a combination of probiotics and prebiotics to provide a synergistic beneficial effect in the microbiome. The BioEcolians® prebiotic contributes to the population of *Lactobacilli* and *Bifidobacteria* species by feeding the good bacteria to help maintain bacterial balance and to improve moderate IBS symptoms.*

If you experience occasional intestinal distress, keep your microbiome strong and well populated with this prebiotic + probiotic to support improvement in regularity and relief from bloating and gas discomfort.* A balanced digestive system also promotes a healthy immune response and inhibits the growth of bad bacteria.*

The Pro+ Synbiotic For You

- ✓ To maintain good colon health*
- ✓ Relieve occasional digestive discomfort*
- ✓ Restore and balance beneficial bacteria*

Take two chewable tablets of Kyo-Dophilus Pro+ Synbiotic once daily to balance your GI system and promote digestive health for your general wellbeing.*

A Probiotic You Can Count On

Kyo-Dophilus® Probiotics are formulated to support healthy digestive and immune systems.* Our probiotics deliver efficacy, quality and extended live cell viability without refrigeration. **The Friendly Trio®** is the core of our formulations.

The Friendly Trio is a clinically studied proprietary blend of human strain *Lactobacillus gasseri* KS-13, *Bifidobacterium bifidum* G9-1, and *Bifidobacterium longum* MM-2.

L. gasseri has been shown to support your body's GI function and immune health and improve symptoms of IBS*

B. bifidum may regulate healthy gut flora and enhance immunity by reducing inflammation*

B. longum is known to normalize bowel movements*

Current studies do not support the idea that higher CFU^{†††} counts are always better. Don't just count CFUs, find a probiotic that you can count on.

We offer a variety of formulas and potencies made with clinically proven strains to help meet your specific health needs.*
