Actual Size

## Guaranteed Potency

- One of the world's most clinically-studied fish oils—the subject of more than 120 scientific reports
- The highest concentration of Omega-3 naturally obtainable from fish oil

## Guaranteed Purity

- Several independent studies have shown Eskimo-3® to be the world's most pure fish oil
- Naturally stable—up to 10 times more stable than other leading fish oils

## Guaranteed Quality

- Natural antioxidants prevent dangerous rancidity with NO fishy aftertaste
- Several independent studies have shown Eskimo-3 to be the world's most stable fish oil

**Eskimo-3® Natural Stable Fish Oil®**  
is up to 10 times more stable than  
4 leading U.S. fish oil products:

Wallin et al 2004

Higher scores indicate greater stability.  
Lower scores indicate more rancidity.

## Why Should You Care About Stability?

If your fish oil is unstable, it can result in:

- Free-radical formation
- Destruction of nutrients
- Unpleasant odors and flavors

The natural EPA and DHA ratio and antioxidants in Eskimo-3 supply exceptional stability and prevent dangerous rancidity to ensure the highest Potency, Purity and Quality.
