

L-CITRULLINE is an amino acid and precursor of L-Arginine; it is converted into L-Arginine once inside the body. L-Citrulline helps increase nitric oxide levels in the blood.* Higher nitric oxide levels may help relax and dilate blood vessels, thus increasing blood circulation to various organs, including the heart, skin and sexual organs.* L-Citrulline supports cardiovascular health.* It may also help the body rid itself of ammonia, a by-product of exercise.* This clearing may enable the body to recover faster after a workout.*

CAUTION: Do not exceed recommended dose. If you are pregnant, nursing, under the age of 18, taking any medication(s), planning any medical procedure or have any medical condition, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur. **KEEP OUT OF REACH OF CHILDREN. DO NOT USE IF SAFETY SEAL IS DAMAGED OR MISSING.**
