

Our Goji Fusion™ is made from hand-harvested, cold-pressed Goji berries. To the pure goji juice we add our own proprietary blend of Amazonian camu-camu, and 100% natural fruit and berry juices.

The goji berries and camu-camu fruit in our Goji Fusion™ are hand-picked when at the peak of ripeness. They are then cold-pressed and flash-pasteurized to preserve their freshness and natural level of all bioactive compounds (e.g. polysaccharides). Our growers personally pick out the best lots of goji and camu-camu and the rest is offered to the open-market. We pay a little more for our raw product, but it's worth it.

A one ounce serving taken one to three times daily, of our great-tasting, all natural, organic goji berry & camu-camu juice blend provides powerful antioxidants, vitamins, natural energy, and immune system enhancers.

Always consult a healthcare professional before taking any nutritional supplement. Do not use if inner seal is missing or damaged. Store at Room Temperature - Shake Well Before Using

Refrigerate After Opening.
