

Lutein and Zeaxanthin are antioxidant carotenoids that occur naturally in the body. They play a key role in maintaining eye health.* Lutein with Zeaxanthin is concentrated within the macula (a part of the retina that controls central vision).* Lutein with Zeaxanthin may help protect the eyes from photons coming from light and from oxidative stress.* Lutein with Zeaxanthin may also support heart health and overall well-being.*

SUGGESTED USE: As a dietary supplement, adults take one (1) softgel daily, preferably with a meal or as directed by a health care professional.

CAUTION: If you are pregnant, nursing, taking any medication(s) or have any medical condition, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur.
