This product contains 2,145 mcg of Vitamin A, which is equivalent to 7,150 IU

Lutemax® 2020 and  2020 are trademarks of OmniActive Health Technologies Ltd.

iSHIELD

What is Blue Light? Blue Light is a high-energy light emitted from digital devices, computers, smartphones and tablets as well as LED and compact fluorescent lighting. Blue Light penetrates deep into the macula, the region of the eye that plays an important role in healthy vision.

Why iShield? iShield contains the clinically studied ingredient Lutemax® 2020, which is a naturally derived marigold extract that provides three macular carotenoids, Lutein, RS Zeaxanthin and SS Zeaxanthin. These carotenoids naturally filter out high-energy Blue Light. Our bodies cannot produce Lutein or Zeaxanthin, therefore we must obtain them from dietary sources or supplementation.

★ **Made In The USA** with select ingredients from around the world

Clean Nutrition

In a world of choice, living your best becomes a collaboration between you...and you. When your well-being is important, living clean is a conscious choice you make. Sundown® believes in living clean...and being transparent. That's why you won't find genetically modified ingredients, gluten, wheat, dairy, lactose or artificial flavors in ANY of our products. Now there's a clean choice you can feel good about.

Blue Light Facts

- 9.5 hours per day – Average time adults spend in front of media screens
- As manufacturers move towards more energy-efficient light sources, the prevalence of LED and Compact Fluorescent lights will continue to grow
