AMAZING BENEFITS OF AMAZING MUSCLE[®] BCAA 3:1:2

BCAAs or Branched Chain Amino Acids are the building blocks of protein. Amino acids are necessary for the growth and repair of muscles and tissues.* Without them, protein in the body breaks down, resulting in muscle loss.* Branched Chain Amino Acids (BCAAs), named according to their molecular structure, include the essential amino acids L-leucine, L-isoleucine and L-valine, and may be taken in supplement form before, during or after workouts to help improve exercise performance and endurance in addition to potentially aiding in muscle recovery.* BCAAs, specifically L-leucine, may potentially help to reduce serotonin levels and help prevent L-tryptophan from entering the brain as a means of bypassing exercise fatigue.* BCAA supplementation may be useful for gaining muscle mass.*

STIR UP: AMAZING MUSCLE[®] BCAA 3:1:2 is very easy to mix with your favorite beverage. Carry your drink on the go. You don't always need a shaker or a blender at hand. Simply stir up one scoopful of powder with liquid. Enjoy!

BLEND UP: Add a serving of BCAA 3:1:2 into a blender with the desired amount of liquid and blend for 20-30 seconds. To make your AMAZING MUSCLE[®] BCAA drink refreshing, add 1-2 ice cubes and blend for 30 seconds. Enjoy!
