

Discover that **Amazing Nutrition** is the key for Healthy Living. We are passionate about bringing you the finest selection of products which not only perfectly complement a healthy diet and active lifestyle.

Magnesium Malate is a compound of magnesium and malic acid. Magnesium is an essential mineral for enzymatic reactions in metabolism. It is primarily stored in the bones and plays a role in the absorption of calcium for the bones.* Malic acid is a natural fruit acid present in most cells in the body, which supports energy production.** Magnesium Malate is a highly absorbable form of magnesium that provides the benefits of this mineral along with the benefits of malic acid.** Malic acid plays a key role in the production of energy in the cells. Malic acid is recommended with magnesium to combat fatigue syndrome.** Magnesium Malate and malic acid are important substances in energy production for the human muscle only.*
