

We believe that **Amazing Nutrition**® is the key for Healthy Living. We are passionate about bringing you the finest selection of products which can perfectly complement a healthy diet and active lifestyle.

Glucosamine and Chondroitin are two substances that are naturally found within cartilage (cushioning between different bones in a joint).* Amazing Formulas™ Glucosamine Chondroitin contains 1,500 mg of the hydrochloride form (most concentrated form) of Glucosamine and 1,200 mg of the sulfate form (most studied form) of Chondroitin for maximum benefits.* Glucosamine Chondroitin supports joint health and may help to reduce the symptoms of arthritis in joints, particularly the hip and knee.* Double strength means fewer capsules to provide extra power to help reduce joint pain and stiffness and to help provide protection for your joints' cartilage.*
