

Clinical studies show glucosamine sulfate is a key building block for connective tissue and cartilage.* The glucosamine sulfate in doctor-recommended **GS-500™** dietary supplement is up to 90% absorbable, which makes it more readily available to the body to support healthy articular cartilage.*

GS-500 is the original glucosamine sulfate product in the United States—the standard by which all the rest are judged.

If pregnant, nursing, or taking prescription drugs, consult your healthcare practitioner prior to use.

ETI is an FDA-registered Drug Establishment.

Contains no sugar, yeast, wheat, gluten, corn, soy, dairy products, artificial coloring, artificial flavoring, or preservatives. This product contains natural ingredients; color variations are normal.

THIS STATEMENT HAS NOT BEEN EVALUATED BY THE FOOD AND DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT, CURE, OR PREVENT ANY DISEASE.
