

We believe that Amazing Nutrition® is the key for Healthy Living. We are passionate about bringing you the finest selection of products which can perfectly complement a healthy diet and active lifestyle.

L-Glutamine is an essential amino acid that is naturally produced in the body. L-Glutamine may help in the synthesis of proteins, providing energy to cells, regulating kidney function, and transporting ammonia through the circulatory system.* There could be a number of factors that can deplete the natural supply of L-Glutamine in the body like stress, illness, surgery, etc. People who are subject to these factors may take L-Glutamine supplement to replenish their body's supply of L-Glutamine in order to provide extra fuel for their immune system and muscles.* In addition, L-Glutamine may also help to reduce muscle and joint pain, and protect the lining of the digestive tract.*
